Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/16/05 has been entered.

Applicant filed an amendment with the RCE on 9/16/05, wherein claims 1-43 were cancelled and new claims 44-49 added.

Reasons for Allowable

Claims 44-49 are allowed.

The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was a method for determining blood recirculation comprising the steps of inducing a succession of variations of value of a blood parameter in the blood in the return line, each variation comprising an increase and a decrease of the value of said blood parameter around an average value or around a predetermined profile, and the measuring, for each variation, of at least one value of the parameter in the blood in the withdrawal line, and determining a blood recirculation value in the vascular access for at least one variation in combination with the other elements (or steps) in the claims.
